Re: *Whole Earth Catalog* rights

John—

This is just to confirm our conversation this afternoon. We agreed that LEGACY MEDIA, INC. (which holds certain film/television rights to the *Whole Earth Catalog* per the agreement of 24 August 1993), will be the exclusive agent for POINT with regard to the electronic rights to the *Catalog* as well. This enables LEGACY, on behalf of POINT, to maximize the potential value of all such rights in the most efficient and timely manner. Based on this new agreement I have initiated contacts with several potential production/distribution allies to identify interest in funding this work to begin immeditately.

I have also arranged to meet with an attorney in New York next week to advise us and possibly represent us in this very specialized arena of activity. I will produce a more formal agreement memo based on this letter (and on the previous agreement) upon my return.

Further!

Best,
